

# Stampin' Template - Interlocking Triple Flap Gatefold

Opening this card is so smooth!

## Dimensions

- 5 1/2" x 12" DSP for the card base
- 4" x 5 1/2" - coordinating cardstock
- 3 3/4" x 5" - DSP
- 3 3/4" x 5 1/4" - Basic White cardstock for inside

## Directions

1. Score card base along long edge at 2", 4", 8" and 10". Fold on the 4" and 8" lines towards the center of the card then fold on the 2" and 10" in the opposite direction. This creates both doors of the gatefold.
2. Cut the 3 3/4" x 5" DSP into three pieces. Cut 1 3/4" in from each end along the long edge. This will leave you with a middle piece that measures 1 1/2".
3. Attach the DSP strips to the 4" x 5 1/2" piece of cardstock, leaving even space in-between the strips. Cut this piece into thirds by cutting the cardstock in between the separated strips.
4. Cover the card front with these strips (they will be the exact size as the card base). Attache them on opposite ends so that the top and bottom strip attaches on the right side gatefold door and the middle strip attaches on the left side gatefold door. Only put adhesive on half of each strip.
5. Stamp inside greeting and attach the 3 3/4" x 5 1/4" Basic White on the inside of the card.
6. Decorate and embellish the strips as desired.
