

# Stampin' Template - Center Panel Easel Card

A twist on the original easel card design.

## **Basic Supplies for Horizontal Version**

- 5 1/2" x 8 1/2" - card base, scored at 4-1/4"
- 4 1/4" x 3 1/2" - cardstock for center panel
- 4" x 3 1/4" - Basic White cardstock, cut 2
- 1" x 4 1/4" patterned paper, cut 2 (optional)
- Punched or die cut shape for inside sentiment

## **Directions**

1. Fold the card base on the score line. Determine the front of the card base. Using the paper trimmer, cut 1" from each edge of the card base front from the bottom up to the score line. These two cuts will make 3 panels on the card front. The center panel will measure 3-1/2" across.
2. Measure and score at the halfway point (2-1/8") of the center panel and fold in half. This center panel should fold towards the inside of the card base.
3. Stamp a background image on the 1" side panels. Adhere both of the 1" side panels to the inside of the card base leaving only the center panel moveable. Or continue with step 4.
4. (Optional) Adhere the 1" x 4 1/4" strips of patterned paper over these panels.
5. Stamp/emboss/embellish on one of the 4" x 3 1/4" pieces of Basic White as desired. Mount this piece onto the 4 1/4" x 3 1/2" piece of coordinating cardstock. This will be the focal point of the card and the feature that stands up as the easel on the center panel.
6. Adhere the focal point to the center panel of the card base ONLY to the bottom section below the folded (2-1/8") scoreline.
7. Adhere the other Basic White cardstock to the inside of the card base and stamp inside greeting.
8. Attach a punched/die cut shape popped-up with dimensionals approximately 1-1/2" from the bottom edge. This creates a "stop" to tuck the folded center panel behind to display the card.
