

# Card Template - Double Pocket Criss Cross Card

Double the pockets, double the fun fold!

## Supplies

- 4" x 11" DSP - 2 coordinating pieces
- 3" x 5.25" cardstock for insert (Basic White)
- Tailor Made Dies (3 largest dies)
- Border Basics ( Cloud border)
- Black & White Twine 18 "
- Cardstock scraps to cut tag dies

## Directions

1. Score the 4" x 11" pieces at 5.5". Lay them next to each other and draw opposite diagonal lines creating a "house" shape.
2. With the two pieces layered together, cut one half diagonally from middle score line to outside corner following the drawn lines. This creates 2 opposite diagonal panels that will layer together and cross over to form a pocket.

3. Lay the cut off triangles together as shown and use as a guide to trace a triangle along the top edge of one panel and cut out. The guide should be .5" above the bottom edge.

Double the pockets, double the fun fold!

4. Adhere the cut out panel on top of the back panel. I love to use Multipurpose Glue for this project. Only put the glue on the bottom and the outside edge. This creates the back pocket.
5. Adhere the diagonal panels along the bottom edge, overlapping one over the other. This will create the front pocket.
6. Use the cloud border die to trim off just the top of the Basic White insert cardstock piece for the front pocket. Decorate the tags for the back pocket. Add focal point on card front.
