

# Card Template - Paper Quilting with Squares

Create a faux quilt-like pattern with 1-1/4" squares of paper.

## Supplies Needed

- 5-1/2" x 8-1/2" cardstock base
- 5-1/4" x 4" cardstock quarter
- 1-1/4" squares of double-sided patterned paper
- Basic White cardstock scraps
- Embossing Folders with small patterns
- Stylish Shapes Dies
- Cut & Emboss Machine
- Tombow Multipurpose Liquid Glue

## Tips

- All designs are built on a quarter sheet of cardstock measuring 5-1/4" x 4", which attaches to a card base.
- Use as many different paper patterns as desired - mix and match to your heart's content.
- Use an embossing folder on the quarter sheet once all the squares are adhered. This gives the pattern a faux quilted look.

## Square Pattern 1 Full Coverage - 12 squares

- Squares can be attached evenly with space in between them or attached with sides touching.
- Focal point can be attached anywhere.

# Card Template - Paper Quilting with Squares

Create a faux quilt-like pattern with 1-1/4" squares of paper.

## Square Pattern 2 Around the Edge - 8 squares

- Squares are attached on three sides.
- Remaining space is filled with a layered focal point image. The Basic White square is 2-1/4", and the matte squared layer is 2-1/2".

## Square Pattern 3 Diamonds - 9 squares

- Find the center of the cardstock quarter. Measure 2-5/8" on the long edge and 2" on short edge to find the center and place the first square with corners on the center lines (diamond shape).
- Place four squares around the first one matching the sides, then add the other 2 middle squares.
- Cut 2 squares in half diagonally to finish the design on the short edges.

Create a faux quilt-like pattern with 1-1/4" squares of paper.

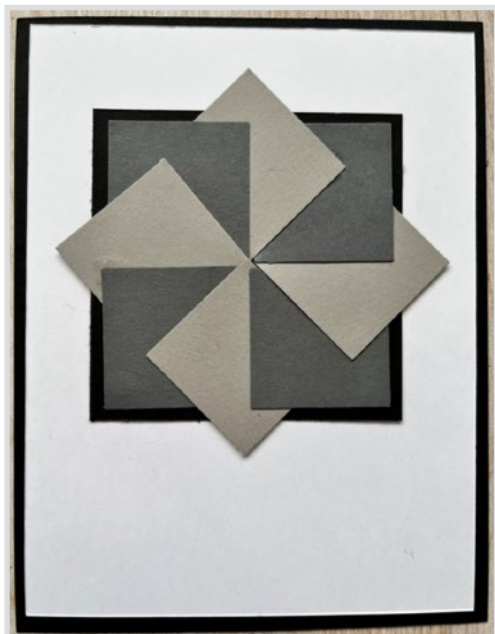

## Square Pattern 4 Layered Bricks - 4 squares & 4 rectangles

- Rectangles measure 1-1/4" x 2-3/8"

## Square Pattern 5 Pinwheel - 8 squares

- Matte layer is 2-3/4". Attach the four dark squares first but only where they meet the outside corners.
- Attach the light squares diagonally in between the dark ones.

Create a faux quilt-like pattern with 1-1/4" squares of paper.

## Square Pattern 6 Two Rows - 8 squares

- Squares are attached in 2 rows.
- Try using a corner rounding punch on 2 opposite corners of each square for a different effect.

## Square Pattern 7 Tumbled - 5-6 squares

- Squares are attached at odd angles from one end to the other with bits extending and trimmed off.
