Stampin' Card Template - Pinwheel Tower Card

A fun, interactive spin card that can be decorated on four sides.

Basic Supplies Needed
- 5 3/4" " x 4 1/4" Basic White cardstock
- 2 3/4" x 4 1/4" Basic White CS, cut 3
- 2 3/4" x 4 1/4" different patterned papers cut 3-4
- 2" x 4 1/4" different coordinating patterned papers, cut 3-4

Options for cutting patterned paper*
- 2 1/2" x 4" different patterned papers, cut 3-4
- 1 3/4" x 4" different coordinating patterned papers, cut 3-4

Directions
1. Score the 5 3/4" " x 4 1/4" piece of cardstock along the long edge at 3/4", 1 1/2", 2 1/4", and 3". Use a bone folder to crease all the score lines in the same direction.
2. Fold on the score lines to make a four-sided column with a tab to glue to the card base. This gives you the center column and the first panel of the pinwheel.
3. Attach the first 2 3/4" x 4 1/4" piece so that it will be perpendicular to the first pinwheel panel. Continue with the next panel by attaching it to the column. Finish with the last pinwheel panel.
4. Attach the patterned paper pieces all around the pinwheel making sure to put coordinating papers next to each other.
5. Decorate the pinwheel sides, remembering to adhere the embellishments so that they don't stick out where you don't want them to.

* Use the optional cutting dimensions for patterned paper if you want to have a cardstock border around the pieces.
