Diagonal Recessed Panel Card
- 5-1/2" x 8-1/2" Thick Basic White cardstock, scored at 4 ¼"
- 4-1/4" x 4-1/2" colored cardstock for card front (cut at an angle, 1" down on top left corner to 2-1/2" down on top right corner)
- 1/2" x 5" coordinating cardstock color for trim, cut 2 (optional)
- 3" x 4-1/4" patterned paper for recessed space

Expanding Diagonal Recessed Panel Card
- 5-1/2" x 8-1/2" Thick Basic White cardstock, scored at 4 ¼"
- 4-1/4" x 5-1/2" colored cardstock for card front (see cutting instructions
- 4-1/4" x 5-1/2" coordinating cardstock color for trim (optional)
- 3" x 3" patterned paper for recessed space or a strip 1-1/4" x 5-1/2" depending on the pattern design.

Directions for Assembly:

1. Fold Basic White card base in half on 4 ¼" score line.

2. If stamping images, or using an embossing folder on the colored cardstock card front piece, do this step first before making the cut in the next step.

3. Cut the card front piece into two pieces following the specific measurements for each recessed panel card type in the measurements.

4. (Optional step) Attach the coordinating cardstock to the back side edge of each cut card front pieces so that only a small sliver (about 1/8") shows creating a matted look.

5. Adhere the piece of patterned paper onto the Basic White card base in the gap where the 2 card front pieces will separate.

6. Add Stampin' Dimensionals to corners, edges and middle of the back side of the cut card front pieces and attach to the card base making sure the matted edges are next to the patterned paper and the outside edges meet the edge of the card base.

7. Create a focal point image with a die cut, punch or fussy cut image and attach to card front overlapping the recessed panel.

Ways to Step-Up the Recessed Panel Card

- Use an embossing folder on the card front pieces.
- Instead of a straight cut for the panel, use a fun border die to make a shaped cut. (Basic Border Dies)
