Directions

1. Choose 2 patterned paper designs that coordinate with each other in color. One should have a bolder small pattern and one should have a more subtle pattern.
2. Stamp the background image on the top half of the 4" x 5-1/4 " piece of cardstock B. You will stamp in the same ink color as the cardstock color you picked.
3. Attach the 2-1/2" x 4" piece of patterned paper D on the bottom half of piece you stamped in step 2.
4. Attach the 1/4" x 4" patterned paper C directly next to the patterned paper in step 3.
5. Adhere the card front to the card base.
6. Stamp the same background image in the same color ink on the 2" square cardstock B. Stamp the greeting image with the square oriented as a diamond.
7. Pop up the 2-1/2" square cardstock B with dimensionals and attach to the card front. So that the points of the square make a diamond shape.
8. Attach the 2-1/4" square of patterned paper C directly onto the 2-1/2" square opposite to the diamond shape.
9. Pop up the stamped 2" square of cardstock B with dimensionals and attach so that the points make a diamond shape and mimic the 2-1/2" square.
10. Add some embellishment dots to the 2" square and surrounding card front as desired.
