

# Stampin' Pattern - Miniature Grocery Sack & Card

This adorable bag looks just like a paper grocery sack!

## **Supplies for Sack:**

- 3" x 6" Kraft paper (for sack)
- 1/4" x 6" Kraft paper (for handles)
- Strong adhesive: Liquid Glue, Seal+, Tear Tape
- Scoring Tool
- Cardstock scraps to decorate sack

## **Directions for Cutting & Assembling the Sack**

1. Starting with the 3" x 6" piece of Kraft cardstock, score at 1/2", 2-1/4", 3-1/4", and 5" along the 6" side. Then turn and score at 3/4" along the 3" side. Fold and crease all score lines in the same direction using a bone folder.
2. Using scissors, cut out the dark gray shaded section as shown above and discard. Cut on the remaining 3/4" score lines as indicated by the dotted lines to create tabs for the bottom of the sack. The light gray shaded section is the flap on the side of the sack that will hold the sack together and where the adhesive is placed. The ends of this flap can be mitered with your scissors to help the sack fold neatly.
3. Use a strong adhesive on the side flap to adhere it to the inside of the opposite side. This creates the body of the sack.
4. Fold the 2 small flaps in first, add adhesive to them, and attach one of the large flaps over them. Then add adhesive to the other large flap and secure it over all. If you use Liquid Glue you have some time to adjust and make sure the flaps are secured straight.
5. Crease the sides of the sack near the top with your fingers (pinching) to create an indentation along the sides.
6. Cut the 1/4" x 6" piece of Kraft paper in half to make 2 sack handles. Fold them as shown and attach on the inside of the sack.
7. Decorate the outside of the sack as desired.

## Supplies for Miniature Card & Envelope:

- 2" x 3" Kraft paper for card base
- 1-3/8" x 1-7/8" cardstock for card front
- 3" square copy paper for envelope
- Scoring Tool

## Directions for Making the Mini Card & Envelope

1. Score the 2" x 3" card base in half at 1-1/2".
2. Decorate the card front piece as desired and attach to the card base. Embellish as desired.
3. Using the template as a guide, mark the 3" square of copy paper at 1-3/8" on two opposite sides and at 1-11/16" on the other 2 opposite sides.
4. Score diagonally between the markings but set back 1/8" from edge of paper. (See picture)
5. Cut out the small triangle sections where the score lines cross. Crease the score lines towards the middle of the square. You will have 2 small and 2 big flaps.
6. Fold the 2 small flaps to the middle and add a bit of adhesive along the inside edge. Trim the point off of one of the big flaps and attach this over the smaller flaps where the adhesive is.
7. Decorate the remaining big flap. Insert mini card and squeal with delight!
