

Stampin' Pattern - Easy Stamped One Sheet Wonders

Enjoy some stamp therapy using this pattern to make multiple cards.

Supplies Needed

- 1 half sheet of neutral cardstock 5 1/2" x 8 1/2"
- 1 half sheet of coordinating cardstock 5 1/2" x 8 1/2"
- 4 card bases (5 1/2" x 8 1/2" or 4 1/4" x 11")
- 3-4 ink pads in coordinating colors
- Blending brushes, sponge daubers, or sponges
- Multiple stamp images of varying sizes
- Optional - sentiment image
- Optional - Embossing Folder

Tips for Creating the Stamped Background

- Start with the largest image first and stamp it in a triangular pattern to keep it evenly spaced.
- Use the next largest image next with a different color ink. Tuck this image in and around the first image.
- Move to the smallest image and fill in where the "holes" are left in your design.
- Gently blend ink over all the stamped images using the same color as they are stamped in.
- Optional: Use a word or sentiment image and stamp over all the other images. Stamp the words going in the same direction across the cardstock.

Directions for Cutting & Assembling

1. Choose the exact starting size for the stamped background piece of cardstock based on which cutting design you are going to use, and cut into 4 pieces. There are 4 cutting designs.
2. Optional: Dry emboss the background pieces with an embossing folder using the Cut & Emboss Machine.
3. Cut coordinating cardstock pieces to matte the background pieces. See dimensions in parentheses.
4. Stamp one image three times onto the front of the card base so that it will peek out from behind the matted background piece when mounted on the card.
5. Attach the matted background piece to the card front.
6. Add a popped-up greeting message and a simple embellishment.
