

# Stampin' Card Template - #8 Awesome Angles

3 cards at once with this super easy angled template.

## Supplies Needed

- 5-1/2" x 8-1/2" cardstock base, cut 3
- 5-1/4" x 4" patterned paper, 3 different patterns
- Neutral cardstock piece/punch/die cut for greeting
- Scraps for die cutting/punching embellishment
- 5-1/4" x 4" copy paper, cut 3 (optional)

## Cutting Variation

- 5-1/4" x 4" coordinating cardstock, cut 3
- 3-3/4" x 5" patterned paper, 3 different patterns
- 3-3/4" x 5" copy paper, cut 3 (optional)

## Directions

1. Choose 3 pieces of patterned paper that coordinate with each other. It works well if one of the patterns is bold and multicolored, while the other two are more subtle with contrasting patterns. Stack the 3 pieces on top of each other making sure the pattern designs are oriented vertically while prepping for cutting in the next step.
2. Measure 1-1/4" down from the top left corner and 2" down from the top right corner and mark with a pencil. Then measure 1-1/4" up from the bottom left corner and 2" up from the bottom right corner and mark with a pencil.
3. Cut all 3 pieces at the same time. Line up the top left corner pencil mark with the top right corner mark along the cutting groove on the paper trimmer and cut between the marks. Do the same thing between the bottom left corner and the bottom right corner marks and cut. These two cuts will give you three angled pieces.
4. Separate the cut pieces into 3 card fronts where each card front has one of each of the 3 patterns: a top, a middle, and a bottom.
5. Adhere the tops, middles and bottoms to the card base lining up the edges. To make this easier first adhere the pieces to copy paper sized 5-1/4" x 4". This allows you to straighten up the edges if needed. Then adhere the copy paper to the card base.
6. Stamp a greeting onto a punched or die cut piece of neutral or coordinating cardstock and attach to the card base overlapping one of the two seams where the patterned papers meet.

## Variation Directions

1. The patterned paper in the variation is slightly smaller so that an extra layer of cardstock can be added to the card front. Instead of the pieces being 5-1/4" x 4" they are trimmed smaller at 3-3/4" x 5".
2. Measure, mark, and cut similarly to the original version except adjust the measurements to 1" and 1-3/4".
