

# Inspiration Sheet – Fun With Triangles

Try three projects using triangle shapes.

## Project 1 – Triangle Background Technique

### Supplies Used

- 5-1/2" x 8-1/2" cardstock card base
- 4" x 5-1/4" cardstock
- 2-1/2" square punched with Decorative Circle punch
- 2-1/4" square punched with 2" Circle punch
- DSP #1: 3" x 3"
- DSP #2: 3" x 3"
- 6" ribbon

### Directions

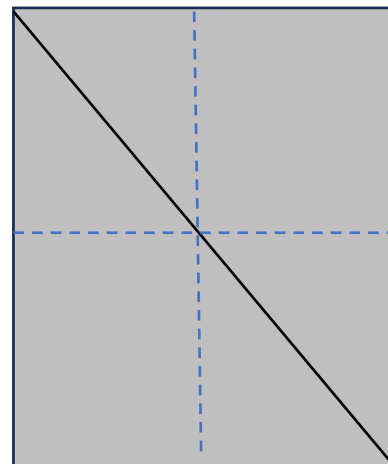

## Inspiration Sheet – Fun With Triangles

### Project 2– Triangle Fold (Diagonal Gatefold)

#### Supplies Used

- 8-1/2" x 11" cardstock (makes 2 card bases)
- 4" x 5-1/4" coordinating cardstock
- 4" x 5-1/4" neutral cardstock for the inside of card base
- 3-3/4" x 5" DSP
- Focal point image large enough to overlap the triangle flaps

#### Directions

1. Score the 8-1/2" x 11" cardstock at 4-1/4" on the 8-1/2" side and at 5-1/2" on the 11" side to divide the piece into equal quadrants. Mark and cut diagonally from one corner to the other. You will have 2 card bases to use.
2. Fold on the score lines and using a bone folder press on the score lines while lining up the triangular flaps to meet and align on the card front.
3. Cut the 4" x 5-1/4" piece of coordinating cardstock in half diagonally making sure the diagonal line matches the diagonal direction of the triangle flaps.
4. Attach the triangle pieces to the triangle flaps making sure the long edge of the triangle meets the edge of the flap. When closed the pieces should meet exactly.
5. Cut the piece of 3-3/4" x 5" DSP in half diagonally making sure the diagonal line matches the diagonal direction of the triangle flaps.
6. Attach the DSP pieces in the same way as the triangle cardstock pieces making sure they meet in the middle.
7. Attach a focal point image to one of the triangle flaps but overlapping both flaps.

## Project 3 – Triangle (Diagonal) Joy Fold

### Supplies Used

- 8-1/2 x 5-1/2" cardstock for card base
- 4" x 5-1/4" DSP #1 for inside of card base
- 4" x 5-1/4" DSP #2 (cut in half diagonally) for outside of card base
- 3" x 8" cardstock, scored at 4"
- 3-3/4" x 2-3/4" neutral cardstock (cut 2)

### Options

- 4-1/4" x 11" cardstock for card base

### Directions

1. Score the 8-1/2 x 5-1/2" cardstock for card base in half at 4-1/4". Determine which side is the front of the card.
2. Cut off the diagonal half of the card front cutting from the top left to the bottom right of the card front. (Save triangle piece cut off to use on a different card)
3. Cut the piece of 4" x 5-1/4" DSP #1 in half diagonally matching the cut corners of the card base (top left to the bottom right). Attach to the triangle flap card front, aligning the long side of the triangle with the edge of the triangle flap.
4. Attach the piece of 4" x 5-1/4" DSP #2 inside the card base.
5. Score the 3" x 8" piece of cardstock in half at 4". This creates a small "joy" card. Attach this folded card to the inside of the card base so that the diagonal flap on the card front aligns diagonally from corner to corner of the smaller joy card.
6. Decorate the front of the joy card.
