

Inspiration Sheet - Double Box Fun Fold Card

A fun fold that stands up to display.

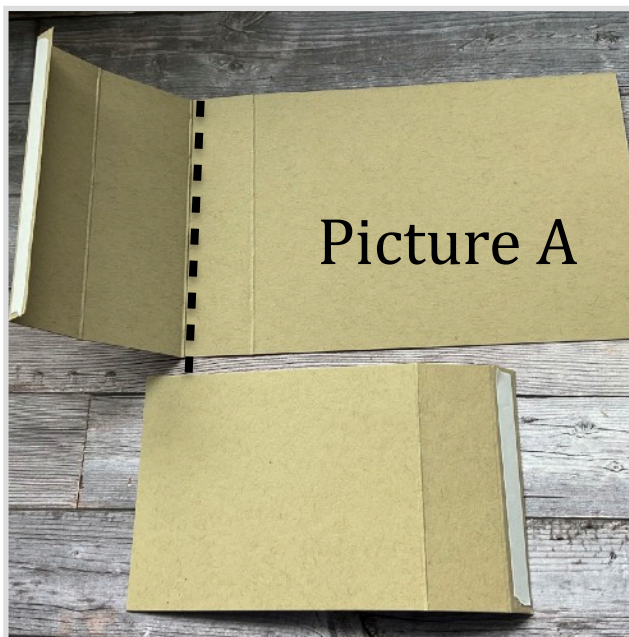

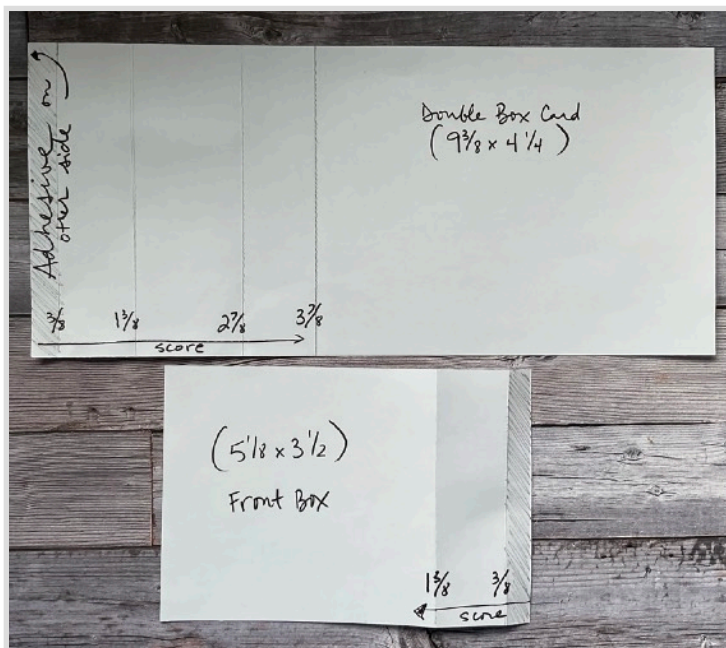

Supplies

- 4-1/4" x 9-3/8" cardstock for card base
- 3-1/2" x 5-1/8" cardstock for top piece
- 4" x 5-1/4" Basic White cardstock
- 1-1/4" x 4" DSP
- 3-3/4" x 4" DSP
- 3-1/4" x 3-1/2" DSP
 - Optional Layers: 3-1/4" x 3-1/2" CS and 3" x 3-1/4" DSP
- Pieces for a layered focal point

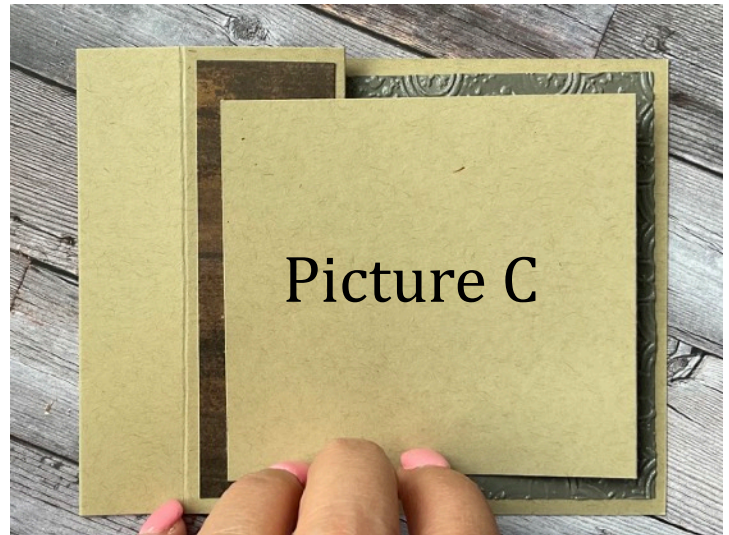

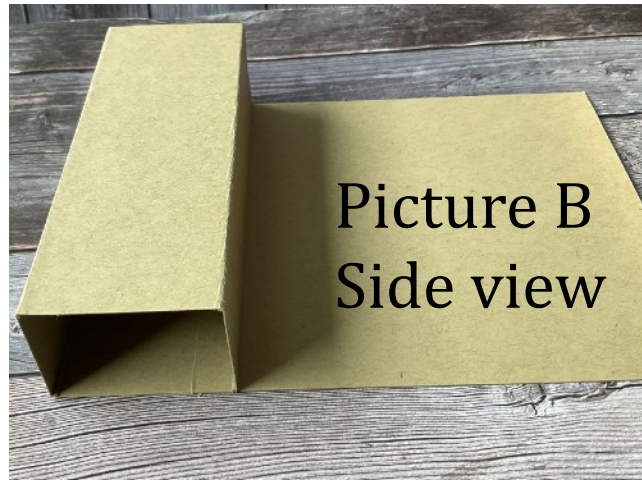

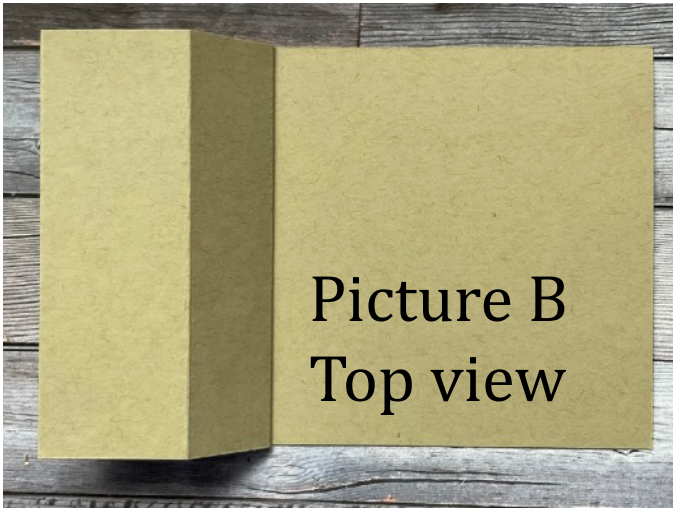

Directions

1. Score along the 9-3/8" side of the 4-1/4" x 9-3/8" cardstock at 3/8", 1-3/8", 2-7/8", and 3-7/8" from the left side. Fold all the score lines in the same direction.
2. Score along the 5-1/8" side of the 3-1/2" x 5-1/8" cardstock at 3/8" and 1-3/8" from the right side.
3. Fold on all the score lines in the same direction.
4. Add adhesive on the 3/8" tab on both pieces (see Picture A).
5. Create the box on the card base by folding on the third score line from the left (see dotted line on Picture A) and tucking the 3/8" tab with adhesive under to attach to the inside of the card base. When this step is completed your card base will have a box on the left side like Pictures B.
6. Adhere the 1-1/4" x 4" and 3-3/4" x 4" pieces of DSP to the card base.
7. Attach the front piece to the card base by first flattening the card base and then centering it over the card base as shown in Picture C. It will attach on the right side where the 3/8" tab is located.
8. Finish attaching the front piece on the left side while keeping the card base flattened. See Picture D.
9. Attach the 3-1/4" x 3-1/2" piece of DSP (or other optional layering pieces) to front piece. Make a focal point!
