Inspiration Sheet - Loaded Pocket Envelope
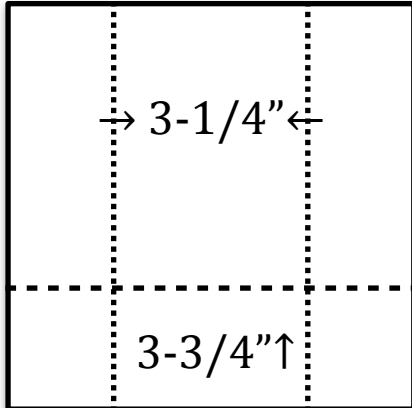

Fill the pockets of this envelope with all kinds of stuff to give as a gift!

3-1/4"

3-3/4"↑

Loaded Pocket Envelope

- 12" x 12" Designer Series Paper
- Tear & Tape
- Scoring Tool

Directions

1. Orient the pattern on the DSP so that it is vertical (if it has a specific direction). Score 3-1/4" in from each left and right side. Rotate the DSP and score 3-3/4" up from the bottom side.
2. Fold and press on these score lines to that they are folding towards the pattern that you want on the inside of the pocket envelope then open back up
3. Fold on the two 3-1/4" score lines to the inside of the pocket. The edges will overlap in the center. Fold back the top corners diagonally to meet the score lines and create a V shape where the edges overlap. This creates the pocket opening.
4. Add adhesive (Tear & Tape) on one edge starting at the bottom of the V all the way to the bottom edge of the DSP and attach together.
5. Fold on the 3-3/4" score line up to create another pocket and use adhesive on each of the sides to secure.

Inspiration Sheet - Loaded Pocket Envelope

Fill the pockets of this envelope with all kinds of stuff to give as a gift!

Sticky Note Holder - for half of a pad of notes
- 3-1/8" x 7" cardstock
- Scored at 2-1/2", 2-3/4", 5-3/4", 6"
