

# Inspiration Sheet – Pocket Trifold Card

This trifold card opens to reveal a pocket on the inside. (Papercrafting Playdate 129)

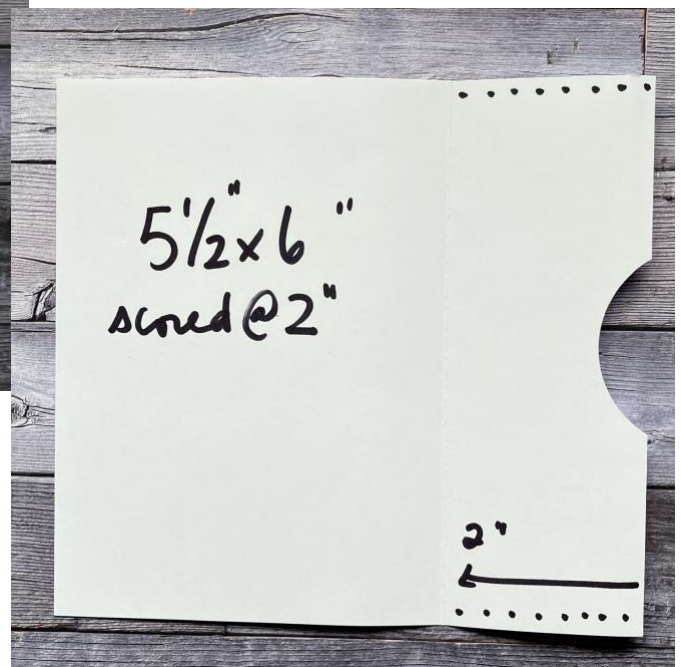

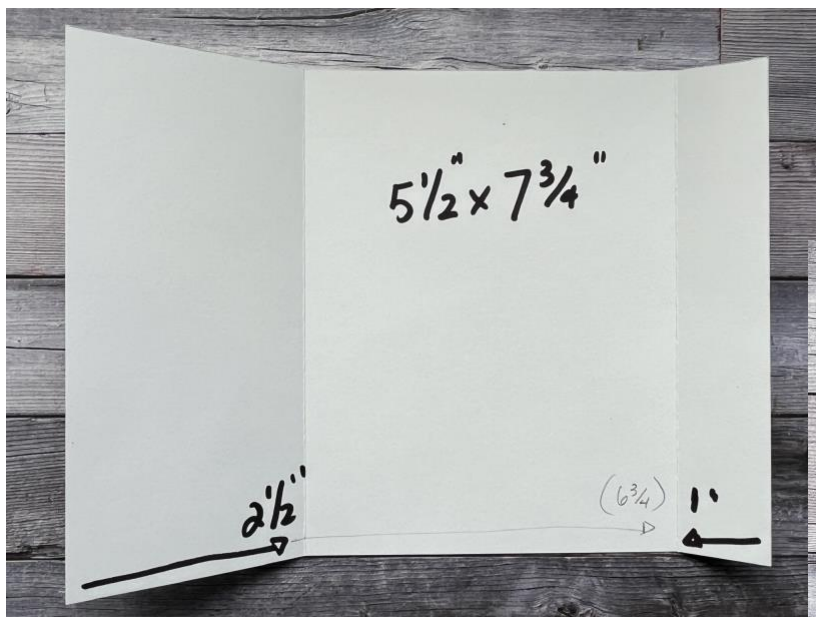

## Supplies

- 5-1/2" x 7-3/4" cardstock for card base
- 5-1/4" x 4" Basic White cardstock for inside
- 5-1/4" x 2-1/4" DSP for front left panel
- 5-1/4" x 3/4" DSP for front right panel
- 5-1/2" x 6" DSP for trifold pocket
- 5-1/8" x 2-3/8" coordinating cardstock to layer
- 5-1/8" x 7/8" coordinating cardstock to layer

## Directions

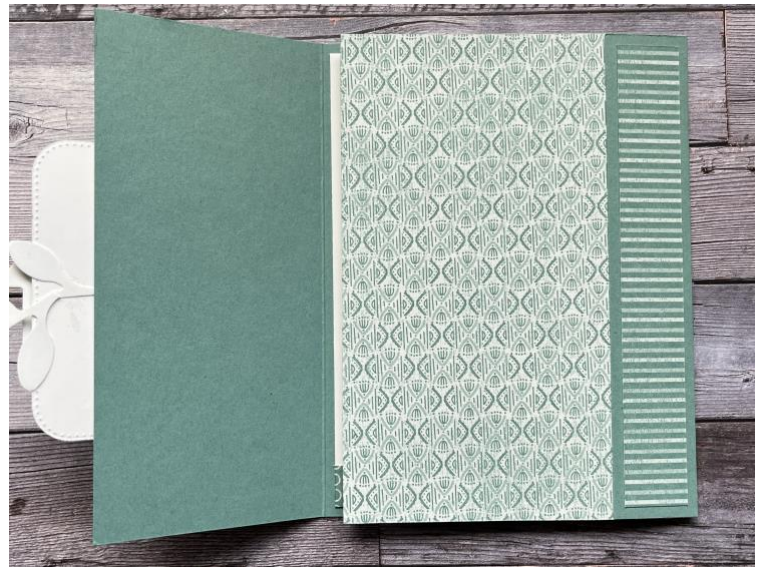

1. Score the card base at 2-1/2" from the left edge and 1" from the right edge.
2. Fold the both of the score lines forward to the middle of the card like a gatefold card except the "gates" will have a gap between them.
3. Attach the 5-1/2" x 2-1/4" piece of DSP to the left 2-1/2" gatefold section of the card front
4. Attach the 5-1/4" x 3/4" piece of DSP to the right 1" gatefold section of the card front.
5. Add the 5-1/4" x 4" piece of Basic White in the inside for the message.
6. Score the 5-1/2" x 6" piece of DSP at 2" along the 6" edge. Punch a finger hold (a partial circle punch) on the edge of the 2" panel. Fold on the 2" score line to create a pocket. Adhere the pocket edges together.
7. Attach the pocket trifold piece to the card base behind the right 1" gatefold section oriented so the pocket is on the inside.
8. Add a focal point/ cluster/greeting to the edge of the left 2-1/2" gatefold section so that it overlaps the gap on the card front.

## Variation - No Pocket Trifold

- Flip the card base so that the gatefold sections are opposite with the 1" on the left and the 2-1/2" on the right. Instead of a pocket, attach a 4-1/8" x 5-1/2" piece of DSP or cardstock to the underside of the 1" gatefold.
