

# Inspiration Sheet – 3-in-1 Fun Fold Cards

These cards come together 3 at a time. (Papercrafting Playdate 132)

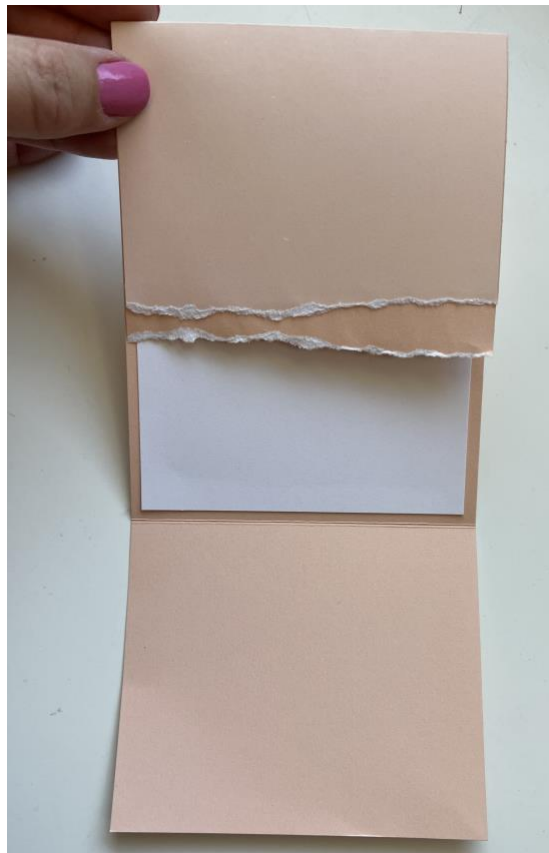

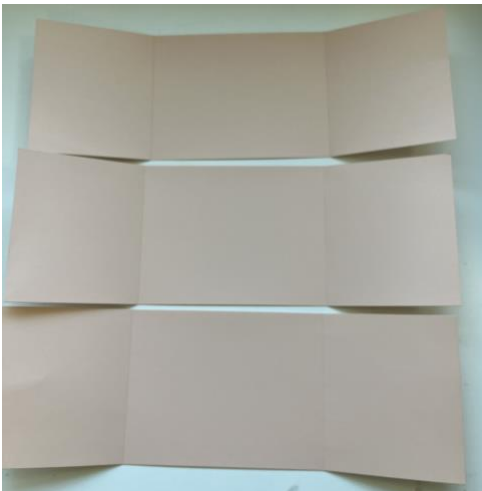

## Overlapping Gatefold 3-in-1

### Supplies

- 12" x 12" patterned paper or Two-Tone cardstock for card bases
- 5-1/4" x 4" pieces of cardstock (3)
- 3-3/4" x 5" Basic White cardstock (3)
- 3-1/8" x 3-3/4" patterned paper (30(optional)
- Punched or die cut shapes for focal image (3)
- Embellishments

### Directions

1. Score the 12 x12 patterned paper at 3 3/8" and 8 5/8" along one edge. These measurements create equally sized gatefolds. (Another option is to score at 3-1/2" and 8-3/4")
2. Turn the patterned paper so that the score lines are horizontal and cut the paper at 4" and 8". This will give you 3 - 4" x 12" pieces of patterned paper.
3. Fold on the score lines so that the gatefold edges overlap. Decide which side fold you want to close on top. (Optional: tear a small amount off the edge of this flap to give it some texture. You can flip the torn edge and reattached it under the first torn edge.)
4. Optional Additions: Use an embossing folder on one of the gatefolds. Add 3-1/8" x 3-3/4" piece of patterned paper to one of the gatefolds.
5. Attach the patterned paper card to the quarter sheet of coordinating cardstock. Add a layered focal point image to only one half of the gatefold (the fold on top). Embellish as desired.

## Z-Fold 3-in-1

### Supplies

- 12" x 12" pattern paper or Two-Tone cardstock for card bases
- 5-1/4" x 4" pieces of cardstock (3)
- 3-3/4" x 3-3/4" Basic White cardstock (3)
- 2-1/2" x 3-3/4" cardstock or coordinating pattern paper (3)
- 1" x 3-3/4" cardstock or coordinating pattern paper (3)
- Punched or die cut shapes for focal image (3)
- Embellishments

### Directions

1. Score the 12 x12 patterned paper at 2 3/4" and 6 3/4" along one edge.
2. Turn the patterned paper so that the score lines are horizontal and cut the paper at 4" and 8". This will give you 3 - 4" x 12" pieces of patterned paper.
3. Accordion fold on the score lines to create a z-fold.
4. Attach the 2-1/2" x 3-3/4" piece over the front fold back flap and the 1" x 3-3/4" piece along the edge of the inside.
5. Attach the 3-3/4" square on the inside.
6. Attach the patterned paper card to the quarter sheet of coordinating cardstock. Add a layered focal point image to the card front. Embellish as desired.
