

# Stampin' Inspiration - Paper Strip Scraps & Faux Quilting

## Supplies

- 5.5" x 8.5" Cardstock base
- 5.25" x 4" Cardstock quarter
- 1" x 6" strips of double-sided patterned paper (2)
- 1" x 4" strips of double-sided patterned paper (6-8)

## Directions

1. On the quarter sheet of cardstock measuring 5.25" x 4", adhere one of the 1" x 6" strips of DSP diagonally across the center. Adhere the second 1" x 6" piece along side the first leaving a small gap in between. The ends of the strips should hang off the side of the cardstock quarter until all the strips are adhered.
2. Now adhere one of the 1" x 4" strips perpendicular to the strip adhered first in step 1 and overlapping the corner.
3. Adhere another 1" x 4" strip perpendicularly on the opposite side offset from the strip in step 2.
4. Continue adhering strips perpendicular to each other to fill in the remaining space on the cardstock quarter. 5
5. Let the glue dry. Turn the cardstock quarter to the back and trim off the overhanging edges with scissors. Now comes the fun part!!!!
6. Choose your favorite embossing folder and emboss the entire cardstock quarter. This will create the quilted fabric look.
7. Mount this piece onto a card base.
8. Stamp a sentiment onto a stitched focal point and add some ribbon to embellish.
