

# Inspiration Sheet – Double Collar Fold

An easy way to fold double-sided pattern paper. (Papercrafting Playdate 144)

## Supplies

- 5-1/2" x 8-1/2" cardstock
- 2-1/2" x 5-1/4" DSP
- (2) 1-3/4" x 5-1/4" DSP
- 2- 3/4" square cardstock
- 2-1/2" square cardstock
- 2-1/4" square Basic White
- 4" x 5-1/5" copy paper (optional)

## Directions

1. Determine the orientation of the pattern on the DSP - either vertical (portrait) or horizontal (landscape). Cut the pieces of DSP keeping the pattern in mind.
2. Attach the 2-1/2" x 5-1/4" piece of DSP to the center of the card front. There will be 7/8" space on the left and right edges.
3. Attach the two 1-3/4" x 5-1/4" pieces of DSP on either side of the first DSP but ONLY use adhesive along the outermost edge of the pieces. The inside edges of the pieces will be unattached and ready for folding into the collar folds.
4. Create four collar folds on the inside edges by folding back diagonally. Start the fold approximately where the edge of the 2-1/2" x 5-1/4" piece of DSP ends underneath. Once the folds are complete, add a touch of adhesive to the area where the collar folds meet to secure to card front, but let the collar folds stay unattached.
5. Layer the squares together, pop-up, and attach diagonally to the center of the card.
