

Inspiration Sheet – One Sheet Book Card with Pocket

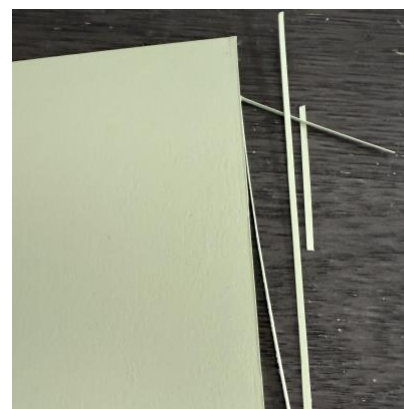

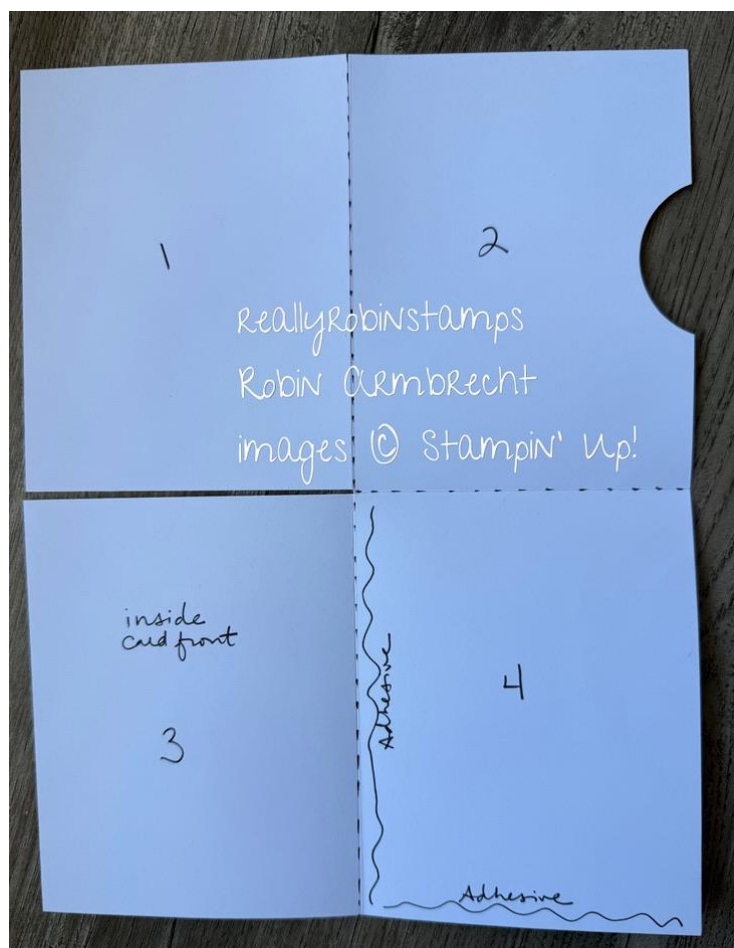

Use a sheet of 8-1/2" x 11" cardstock to create a small card-sized album.

Supplies

- 8-1/2" x 11" cardstock
- 3-1/2" x 4-3/4" Basic White
- 4" x 5-1/4" pattern paper (4 different pieces)
- 3/4" x 4-3/4" pattern paper
- Circle punch
- Liquid Glue or Tear Tape

Directions

1. Use the diagram below for section labels, scoring, cutting, punching, and gluing.
2. Score the 8-1/2" x 11" piece of cardstock at 4-1/4" along the 8-1/2" x 11" edge.
3. Turn the cardstock and cut at 5-1/2", stopping at the 4-1/4" score line. Cut an additional tiny sliver of cardstock next to the 5-1/2" cut line, measuring at 5-9/16".
4. On the opposite side, score at 5-1/2", stopping at the 4-1/4" score line.
5. Punch half of a circle in the middle edge of section 2.
6. Fold sections 1 & 2 down over sections 3 & 4 and press on the score line between 2 & 4. Fold on the score line between sections 1 & 2 to the right. Section 1 will make an individual page. When Section 3 (the card front) is folded closed over the album there will be a tiny bit of "page creep" with the other 3 sections. Trim 1/16" or so off these edges.
7. Sections 2 & 4 will make a pocket. Use adhesive as shown on the diagram to secure the pocket, leaving the punched edge open. Attach 3/4" x 4-3/4" piece to Basic White to insert into pocket.
8. Attach pattern papers to all pages and decorate as desired.
