

## Inspiration Sheet - Split Front Panel Cards

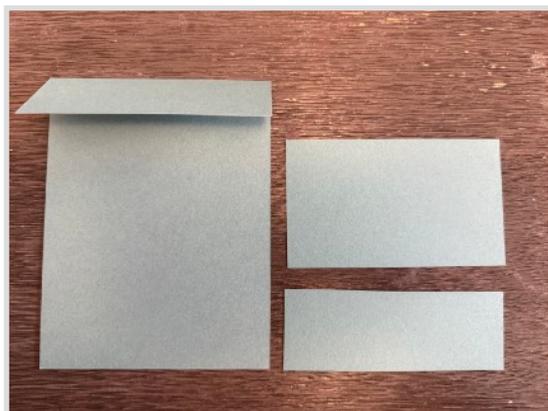

Cut up the front of the card base and put it back together! (Papercrafting Playdate 170)

### Measurements - Split Front Panel

- 4-1/4" x 11" card base
- 4" x 5-1/4" Basic White
- 1-1/4 x 4 DSP #1 (2)
- 2-1/4 x 4" DSP #2 (1) or Basic White

### Directions

1. Score the 4-1/4" x 11" card base in half at 5-1/2". On the front of the card base measure along the 11" side at 1-1/2" and cut off. Measure again at 2-1/2" and cut off.
2. Attach the 4" x 5-1/4" piece of Basic White inside the card base.
3. Attach the 1-1/4 x 4" pieces of DSP #1 on the 1-1/2" section of what's left of the card front and on the 1-1/2" x 4-1/4" piece that got cut off first.
4. Attach the 2-1/4 x 4" piece of DSP #2 on the 2-1/2" x 4-1/4" piece of card front that got cut off second. Reattach this piece to the card front by turning it perpendicularly and adhering it first to the top section of the card front (It can be centered or offset).
5. Line up the remaining 1-1/2" x 4-1/4" piece along the bottom edge of the card and attach the bottom of the 2-1/2" x 4-1/4" piece. This now connects the card front.
6. Stamp the inside greeting making sure it is behind the 2-1/2" x 4-1/4" piece.

# Inspiration Sheet - Split Front Panel Cards

Cut up the front of the card base and put it back together! (Papercrafting Playdate 170)

## Measurements - Split Front Panel Fence

- 4-1/4" x 11" card base
- 4" x 5-1/4" Basic White for inside if card base isn't white
- Optional for inside: 5-1/4" x 8" DSP, scored at 4" to make an inside card

## Directions

1. Score the 4-1/4" x 11" card base in half at 5-1/2". On the bottom front of the card base measure along the 11" side and cut off six 1/2" strips. This leaves you with 2-1/2" left of the card front.
2. Add masking paper, masking tape, or sticky notes upside down under the card front. The sticky side should be facing up.
3. Create horizontal fence posts by spacing four 1/2" strips in the empty space of the card front. Start with a strip along the bottom edge and work your way up leaving 1/4" in between strips.
4. Once those strips are straight (sticking to the masking tape) add two strips to make the vertical fence posts.\* Add adhesive on each horizontal fence post 3/4" from the edges where the vertical fence posts will attach. The vertical fence posts are longer than needed so about 1/2" will hang past the bottom edge of the card front.
5. Let the adhesive dry/set. Remove the masking tape and trim off the vertical post overhang.
6. Decorate your fence!
7. Attach the 4" x 5-1/4" piece of Basic White inside the card base.
8. \* Trim the top ends of the vertical fence posts to make a point.
