

Stampin' Inspiration - Overlapped Symmetry Template #36

(Papercrafting Playdate 177)

Measurements

- 5 1/2" x 8 1/2" card base
- 3" x 4" (1 & 2) DSP
- 1-1/4" x 3" (3) DSP or cardstock
- 1/2" x 2-1/4" (4) cardstock
- 3 embellishments

Choose 2 coordinating DSP patterns that compliment each other for the 3" x 4" pieces.

The focal point represented by the white circle can be anything like die cuts, decorative tag, or flowers.

Optional: Cover the card front with a 4-1/4 x 5-1/2" piece of subtle coordinating DSP or an embossed piece of cardstock.

Optional: Stamp a coordinating background image in the top left and bottom right corners of the card front.

Directions

1. (Optional Step) Attach the 4-1/4" x 5-1/2" piece of cardstock or DSP to the card front. This piece can be a subtle coordinating piece of pattern paper or an embossed piece of cardstock.
2. Adhere DSP #1 1/4" from the left (fold) edge and 1/2" from the bottom edge of the card front.
3. Adhere DSP #2 1/4" from the right edge and 1/2" from the top edge of the card front, overlapping DSP #1. (Ahh, happy symmetry)
4. Adhere DSP #3 (or cardstock) approximately 1-1/2 to 1-3/4" from the bottom edge of the card front and centered over the two 3" x 4" pieces of DSP. There will be 3/8" from the edges of DSP #3 to the edges of DSPs 1&2.
5. Pop-up the focal point image or shape and layer over the overlapping rectangles pieces where they meet at the top left corner of DSP #3.
6. Stamp a greeting on the 1/2" x 2-1/4" piece of cardstock. (Optional) Snip the ends of this piece to create a banner shape. Pop up the middle and right side of this piece and adhere over DSP #3 and overlapping your focal point. Use regular adhesive on the left side where it attaches to the focal point.
7. Add three embellishments in the empty spaces creating a long skinny triangle.
